Product Name: T5 T8 driver

Product Model: SST-18W240-TGN

Product Description:

This tube driver has a unique function,winning all our customers' satisfaction and admiration.It is OVP(over voltage protection).

With OVP,Input voltage reach 85-320vac,when voltage is up to 320v,the driver will automatically switch off and be protected,and resume work when the voltage <300 volt.

OVP make the drivers avoid the harm from unstable voltage.It is perfectly applicable to the local of voltage instability.

- Active PFC(UL)/Passive PFC(SAA)
- Protection:Open circuit/short circuit/over coltage
- IP grade: IP20
- Start time:<0.5s/220v; <1s/110v
- Working Temp:-10~45℃
- Storage temp:-30~85℃
- 3 year warranty
- Certifications:--
- Application:T5 T8 T10

Technical Parameters:

Model	Power	Input	O/P volt	O/P current	PFC	Effi	Size (L*W*H)	Feature
SST-18W240-TGN	6-22W	85-265V 50/60HZ	30-88V	120MA/ 180MA/ 240MA	>0.9	>89%	120*16*10	constant current, non-isolated 3 years warranty WITH OVP
SST-18W240-TGN-S	6-22W	85-265V 50/60HZ	30-88V	120MA/ 180MA/ 240MA	>0.9	>89%	97*17*10	constant current, non-isolated 2 years warranty
SST-18W240-DB	6-22W	85-265V 50/60HZ	30-88V	120MA/ 180MA/ 240MA	0.6	>89%	60*10*10	constant current, non-isolated 2 years warranty
